## WATER SOLUBLE OILS

Kinetik Technologies is pleased to present a new range of water soluble oils from Res Pharma called RESPLANTA®. These unique ingredients are derived from natural plant oils, transformed into water soluble/dispersible oils through an exclusive trans-esterification process.

This process, which replaces a portion of glycerin in the triglycerides fraction of the starting oil with an ethoxylated vegetal glycerin, produces stable ingredients that are transparent with very low acidity.

The inclusion of vegetal oils in aqueous environments usually gives rise to problems of solubilization and oxidation. Using a product from the RESPLANTA range will help you overcome these formulating hurdles. Furthermore, RESPLANTA's excellent dermal and ocular compatibility allow them to be used in a wide variety of products, including skin care, bath and massage formulations.

### **Benefits:**

- Will not interfere with foaming activity of surfactant systems
- Easy to disperse
- Classified as non-irritant
- Low odor
- Ethylene oxide-free
- Over 90% biodegradable
- No animal testing

### **Product**

	Resplanta ALM
	Resplanta BABASSU
	Resplanta COCONUT
	Resplanta COTTON
	Resplanta GRAPE
	Resplanta HEMP
	Resplanta KARITE'
	Resplanta JOJOBA
	Resplanta MAC
	Resplanta MAIS
	Resplanta OLEA
	Resplanta PGA
	Resplanta RICE
	Resplanta SMO

### **INCI Name**

Almond Oil PEG-8 Esters
Glycereth-8 Babassu Oil Esters
Glycereth-8 Coconut Oil Esters
Glycereth-8 Cotton Oil Esters
Grape Seed Oil PEG-8 Esters
Cannabis Sativa Seed Oil PEG-8 Esters
Glycereth-8 Shea Butter Esters
Jojoba Oil PEG-8 Esters
Glycereth-8 Macadamia Seed Oil Esters
Corn Oil PEG-8 Esters
Olive Oil PEG-8 Esters
Glycereth-8 Avocado Oil Esters
Glycereth-8 Rice Oil Esters
Glycereth-8 Sesame Oil Esters

-  Resplanta SOJA
-  Resplanta SUN
-  Resplanta TRITICUM

- Soybean Oil Glycereth-8 Esters
- Glycereth-8 Sunflower Seed Oil Esters
- Wheat Germ Oil PEG-8 Esters
