

Choco Scrub 036 CF

Ingredient	INCI designation	% w/w	Supplier
Sucragel CF	<i>Capric/Caprylic Triglycerides & Glycerine & Aqua & Sucrose Laurate</i>	25.0	Alfa Chemicals
Surfhope C-1616**	<i>Sucrose palmitate</i>	1.0	Mitsubishi-Kagaku Foods
Glycerin	<i>Glycerine</i>	5.0	
Water	<i>Water</i>	0.3	
Labrafac CC	<i>Capric/Caprylic Triglycerides</i>	61.7	Gattefossé
Microzest Cocoa	<i>Theobroma cacao</i>	0.5	Lessonia
Cocoa Exfoliator 500	<i>Theobroma cacao</i>	4.0	Lessonia
Cocoa Exfoliator 1000	<i>Theobroma cacao</i>	2.0	Lessonia
Cocoa Fragrance	<i>Fragrance</i>	0.5	MLW

APPEARANCE:

Transparent gel containing brown exfoliating particles.

MANUFACTURING PROCESS:

At room temperature mix together the Sucragel CF with the Surfhope C-1616, glycerin and water with a spatula.

Heat this mixture up to 75°C (avoid the hot plate which might heat too much and caramelize the Surfhope). Heat the Labrafac CC up to 75°C as well.

Start the propeller in the Sucragel CF/Surfhope C-1616 mixture at quite a fast speed and then add the Labrafac CC slowly into the mixture. Adjust the stirring speed upon the viscosity of the gel (it should increase as the oil is added).

Cool down to room temperature.

Once the gel is cold add the Microzest, Exfoliators and fragrance.

PROPERTIES:

Easy to rinse off scrub.

STABILITY TESTS:

In progress

COMMENTS:

** Surfhope C-1616 can be directly replaced with **Sucrablend SP**

This formula is presented in good faith, and we believe it is correct, but no warranty as to accuracy of results, or fitness for a particular use is given, nor is freedom from patent infringement to be inferred. It is offered solely for your consideration, investigation and verification.
